

**Instructions:** First fill in the circle with your social identities (see the social identities definitions sheet attached). Then further categorize using the questions in the middle. For example, if your first language is English, write that in the corresponding section in the wheel. Then, if first language is something you think about the least, write a “2” next to where you wrote English. Complete for each social identity category in the wheel.

Adapted for use by the Program on Intergroup Relations and the Spectrum Center, University of Michigan.
