

# Tuition Incentive Program

Fact Sheet for Academic Year 2022-23

## Description

The Tuition Incentive Program (TIP) encourages eligible Medicaid recipients to complete high school by providing tuition assistance during an eligible student's qualifying certificate or associate degree program and also during the student's bachelor's degree program. These two periods of assistance are referred to as 'Phase I' and 'Phase II' and are detailed later in the *Program Limits* section.

- Only students who were identified by the Michigan Department of Health and Human Services (MDHHS) as having met the Michigan Medicaid eligibility requirement may be considered for TIP.
- MDHHS only considers students who had a qualifying form of Medicaid for 24 months within a 36 month period between age nine and high school completion as having met the Medicaid eligibility requirement.
- Students, as young as 12, who have been identified as meeting the Medicaid eligibility requirement will be sent a notification about their TIP eligibility.

## FAFSA

### Reimbursement at Participating Community Colleges

For persons not residing in any community college district or those where the chosen program of study is not offered, the out-of-district rate may be authorized.

### Reimbursement at Participating Public Universities
